

The Art of Spiritual Hypnosis

**Las Vegas, August 24, 2017
One-day workshop at Hypnothoughts Live**

Instructor: C. Roy Hunter, DIMDHA, DAPHP

This is an experiential workshop based on the highly praised book, *The Art of Spiritual Hypnosis* (2016, Blooming Twig Publishing).

People of all faiths pray, seeking answers from a Higher Power. Whether or not you pray often, seldom, or never, have you ever wondered what it would feel like to receive an immediate response from a prayer?

What if hypnosis and meditation were keys to making this possibility become reality?

Whether or not you are trained in professional hypnosis, this workshop may be well worth your while if you identify with others who seek Divine Wisdom.

The workshop will include both individual and group journeys similar to the amazing stories shared by highly respected hypnotherapists from around the world who contributed to Roy's latest book. Roy will also share some case summaries from his many years of experience that are not included in the book.

The Art of Spiritual Hypnosis became an Amazon Kindle bestseller in three categories in only days after release of the Kindle version, and has received outstanding reviews from numerous sources.
